### REGATTA. BIG

The Railroads Working to Have the Associations Meet Here.

WHAT THE CITIZENS MUST DO.

The Rio Grande Western Officials Return-The New Union Pacific Freight Depot-General Notes.

A regatta in which the best amateur oarsmen in the world will participate is what Salt Lake can secure next season at small expense

The National and Mississippi Valley Rowing associations are anxious to come here, and their requests are so reasonable that Salt Lake will hardly let the opportunity slip. A two days' regatta partici-pated in by the most noted amateurs in America would prove a strong drawing card, and would bring thousands of visitors here. There are in the two associations named 160 oarsmen. The railroads will furnish them with transportation, and all Salt Lake needs to do is to guarantee their expenses while here, which will not exceed \$1,000.

\$1,000.

It is proposed to hold the first regatta at Garfield and the second on Utah lake, us this will not only unite Salt Lake and Provo in "the cause and divide the expense, but demonstrate again that Salt Lake is the fastest water in the world. Sait Lake is the fastest water in the world. In order to secure the regarda, arangements must be completed by January 1st and a committee will probably be at work within a few days. It has been suggested that a navy be organized here, but this would hardly be practicable. A better plan would be to organize an association and if this proves successful, a navy might follow.

Cantain Glasmann has the matter in Captain Glasmann has the matter in hand just now and he thinks that with the aid of the railroads, the attraction ought to be secured without much exertion.

### Rio Grande Western Officials Return.

Superintendent Welby and Assistant General Freight Agent Brown, of the Rio Grande Western, returned from the Silver valley last night. While from home they attended the celebration at Mt. Pleasant, where the rejoicings were great over the completion of the road to that point. As yet trains have not commenced to run to that place but it is expected that wheels will rumble in that vicinity within the

The New Freight Depot.

The new Union Pacific freight depot, a block south of the old depot on First South street, is rapidly nearing completion. The Union Pacific folks, indeed, expect to occupy it next week. It is a large and commodious building and will afford offices complete for the department, and ample storage room for the company's wonderful traffic at this point. The depot is a credit alike to the company and city. Carpenters will practically complete their work this week

### General Notes.

It is reliably stated that Vice-President Holcomb, of Omaha, and General Manager Rosicomb, or Omana, and General Manager Ressiguie, of the Union Pacific, will reach this city at noon to-day. Mr. Ressiguie joined Mr. Holcomb at Rock Springs, Wyo., and together they are inspecting the road and the road's traffic from that place to Salt Lake. It is probable that there will be some live railroad news in a day or two.

The Rio Grande Western is running a very respectable train east at the present time. It consists of eight handsome coaches and a Pullman. Three cars are bran new and among the finest that ever ran over any road in the land. Officials of the road suggest that No. 2 is the train for passengers for the east to taxe.

Vice-President Holcomb denies the rumor that Traffic Manager Mellen has been asked to resign.

### Mt. Pleasant Celebrates

Mt. Pleasant shone in all her glory to day. Flags and streamers floated from spires, windows and liberty poles. Main street was crowded with people as if it were the Fourth of July. People came from all the surrounding settlements ar rayed, as if they were going to do homage to a King, Emperor or President of the people began to gather to Main street. And why all this demonstration? The advent of the Rio Grande Western into our Queen city. After marching to the depot to the music of the band where stood the "Little Giant" snorting and snuffing with its coaches attached, in which were a num-ber of the Rio Grande Western railroad officials, the large concourse of people were called to order, after which the Hon. C. N. Lund made the speech of welcome. This was replied to by Superintendent A. E. Welby, whose speech, though brief, was loudly applauded. The following named gentlemen then made short speeches: William Brown, assistant freight agent: Mr. Knapp, superintendent of the Southern Pacific: Mr. Colton, treasurer of the Rio Grande Western, and Messrs. Yard and Snow, the locating engineers of the road. After the speeches were over, three hearty cheers were given for the "Little Client," and the state of the Little

Giant," and officials were invited to accept the hospitality of the city. Marching back the officials of of the road, members of the city council and the gentleman who composed the committee on entertainment, in connection with a number of prominent men of the county, sat down to tables which fairly ground under the weight of good things which covered them. good things which covered them To say that it was left in the same con

dition would be using hyperbole; so after all had been refreshed, acting Mayor, Madson made a short speech, which was heartly applauded. Mr. Welby responded, and was followed by Judge Johns and was followed by Judge Johnson.

The visitors were driven around the town, and expressed themselves as highly pleased with our city, and the beautiful valley. At 4:30 p. m. they started back for the capital city.

The day's enjoyment concluded with two parties, one at each hall, at which those who desired, tripping the light fan

Report on Marine Charlesouce Suggestions. Washington, Nov. 10. - The committee appointed to examine the surgestions of the International Marine conference, has made a lengthy report to the accretary of the treasury. The committee ones not agree with that portion of the report of the delegations which recommends the uppointment of a board of "five experts" in matters pertaining to mercuant marine and an admiralry lawyer, esc. The objection to the "five experts" is the fact that sura appointments would necessarily of make from persons interested and therefore as takey would be obliged to pass upon matters in which they themselves are interested, it would be scarcely possible to secure a satisfactory board of "experts" or associate members. The appointment of an "almiraty lawyer," as proposed, does not appear necessary. Under the provisions of the same law three men have been granted a fur-lough in orders from the war department with a view to their discharge after three months. It is not possible at the present time to state the number of men that in like manner have been granted furloughs by the several department commanders. The largest number of discharges for fraud are men who, being married, had represented themselves as single men, and for concealment of prior dishonorable service, disability for duty, having helpless responsibilities, etc., while "other causes" include habitual drunkenness, unfitness for service, to prevent scandal, conviction by civil anthority, at.

# How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED. As a general family remedy for Dyspepsia,
Torpid Liver, Constipation, etc., I hardly
ever use anything else, and have never
been disappointed in the effect produced;
it seems to be almost a perfect cure for all
diseases of the Stomach and Bowels, 4
